Product Advantages:

- Housing made completely of chrome nickel steel (1.4301) / (304).
- Tightly welded top plate with lateral drain channels for easy cleaning.
- Low energy and water consumption but highly efficient due to a double jacketed kettle with separate VAPRO steam generator.
- Short heating up times with VAPRO pressure steam system.
- 3 cooking programmes as standard (light simmering, medium boiling and strong boiling).
- Because of the steam generator with utility water monitor and automatic water level regulation the appliance is constantly ready for use.
- Double walled hinged lid with spring loaded swivel joints as standard.
- $\frac{1}{2}$ " old and warm water supply required.
- Equipped for connection to a power optimization system – with mixing tap R3/4" (DN20).

Installation requirements:

• Electrical supply provided by customer.
