

PHOENIKS

Mixing Kettle 300L with Steam Connection

Product Reference: W237032

Technical Data:

External Dimensions	1780 x 1900 x 1470 mm
Water Network Pressure	2 1/3 bar (max)
Steam Network Pressure	3 to 6 bar (max)
Maximum Pressure	0.5 bar
Maximum Steam Temperature	105° C
Kettle Flow	150 kg/hr
Capacity	300 L
Connected Load	4 kW
Voltage	415 3 Phase AC
Frequency	50 Hz
Recommended Fuses	3 x 10 A
Space between Tank and Pillars	70 mm (easy cleaning)

Product Description:

- Steam from plant network (pressure 3 to 6 bar max).
- Water inlet
- Electric tilting.
- Water meter on hot or cold water network Mixing arm inclined at 15°C with engine power fixed on top. Equipped with teflon scrapers fixed on a s/s axis
- Control panel: Siemens with colour 7 inches touch screen. Setting of 100 recipes Possibility to transfer the production data on a USB key.

Options:

- Cooling device: Cooled water inlet in the exchanger, evacuation of overflow of water, pipe at the top of the tank to be connected to the compressed air network in order to reduce the pulling time, clean up of the exchanger at the end of the cycle
- Drainrack: Perforation diameter 8 mm
