

Technical Data:

Dimensions	1428 × 1740 × 915 mm
Voltage	415 3 phase AC 50 Hz
Motor	2.2 kW
Output	1500 kg/h
Weight	305 kg
System of protection	IP 56 hose-proof
Material	Stainless Steel
Conforms to	CE

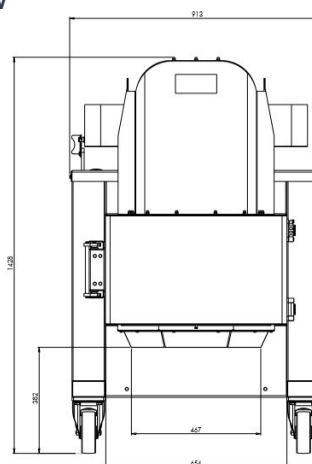

Product Description:

- Seamless integration into existing production workflows
- Wide variety of easily interchangeable tools
- Fully stainless steel construction for maximum hygiene and durability
- Gentle separation of all types of dried fruit into free-flowing, intact individual pieces
-
- Hydraulically supported infeed of the material to be loosened
- Wide range of tool configurations Complies with the strict hygiene and quality demands of the foodstuffs industry.
- Simple integration in existing production processes
- Easy to operate and clean Swiss quality product.

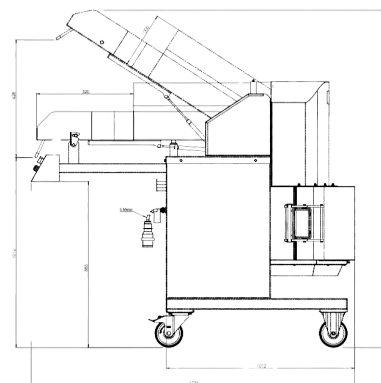

Accessories:

BRUNNER
ANLIKER swiss  made
