

Technical Data:	
Dimensions	769 (984) × 1010 × 1528 mm
Voltage	415 3 Phase AC - 3 x 2 A 50 Hz
Motor	0.75 kW
Weight	100 kg
System of Protection	IP 26
Conforms to	CE

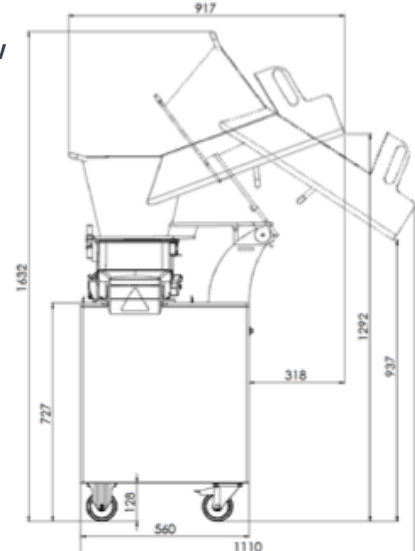

Product Description:

- Universally adaptable with a versatile modular system
- Built for high-volume performance with smooth, nudge-free operation
- Dishwasher-safe components for effortless cleaning and top-level hygiene
- Precision cutting with drawing cut minimises nutrient loss and extends shelf life.
- Induction motor with maintenance-free gearbox
- Large feed chute
- Separate filling tube for perfect processing of individual cucumbers
- Mobile device with simple switchless operation.
- Mobile disc storage suitable for machine or wall mount
- It is an all-rounder that will process up to 1500 kg per hour.
