

Technical Data:	
Dimensons	758(984) x 739 x 1085 mm
Voltage	415 3 Phase AC - 3 x 2 A 50 Hz
Motor	0.75 kW
Weight	114 kg
System of Protection	IP 26
Conforms to	CE

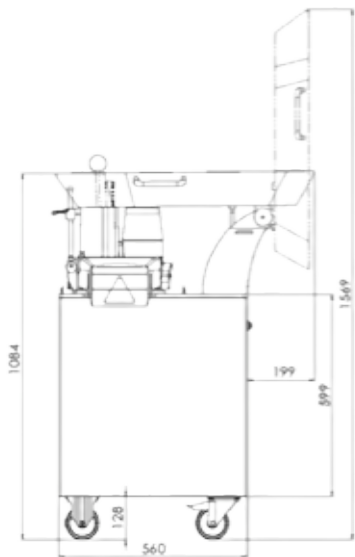

Product Description:

- Versatile design with a modular system for universal application
- Delivers creative, precise results with specialised cuts for brunoises and gaufrettes
- Dishwasher-safe for quick, hygienic cleaning and maximum cleanliness standards
- Precision cutting with drawing cut minimises nutrient loss and extends shelf life
- It is an all-rounder that will process up to 800 kg per hour.
- Mobile device with simple switchless operation.
- Mobile disc storage suitable for machine or wall mount
- Solid stainless-steel housing
- Ceramic coated cutting discs with scratch and wear resistant surface, dishwasher- safe and easy to clean
- Induction motor with maintenance-free gearbox.
- Large filling tray
- Simple product in feed with ram
