

Product Introduction:

- These trolleys are built for strength and durability, designed to handle heavy loads without losing their shape. With welded spacers, continuous welded slide bars, and a precise manufacturing process, they deliver exceptional rigidity and resistance for long-lasting performance.

Product Description:

- Welded stainless steel.
- Square tube of 25x25 mm, 1.2 mm thick.
- One intermediate spacer on trolleys with 17 and 20 levels.
- The trolleys can withstand up to 250 kg maximum and 20 kg per level.
- Made of bright polished sheet : 1.2 mm thick.
- Continuous argon welded without filler metal.
- L-shaped with runner stops at each end.
- 4 swivel castors, 2 with brakes; Ø 125 mm with round bumpers; Polyamide cover, stainless steel axles and ball bearings; Rubber mark-proof tread.
- Delivered as flat pack item.

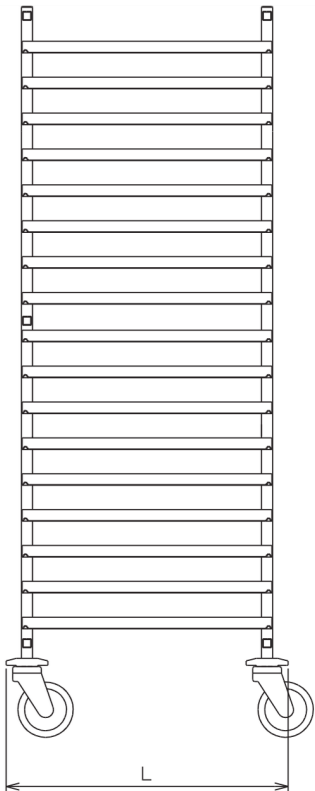

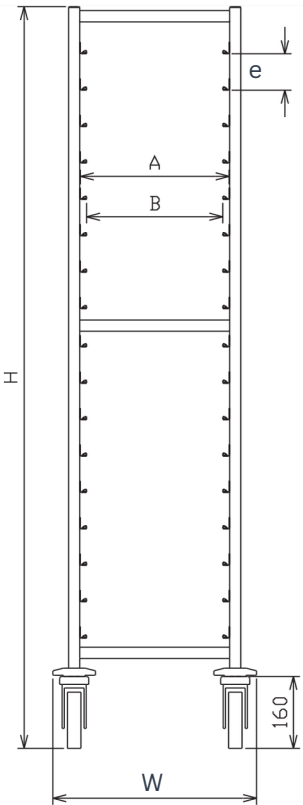

Options:

- Bar of closing for transport
