When performance becomes sublime

With its 360° panoramic vision and its elegant stainless steel design, the IDéal attracts attention, whets the appetite and boosts your roast chicken sales.

Ultra-efficient, effortless automatic cleaning

Intuitive and user-friendly use

Smart and economical operation

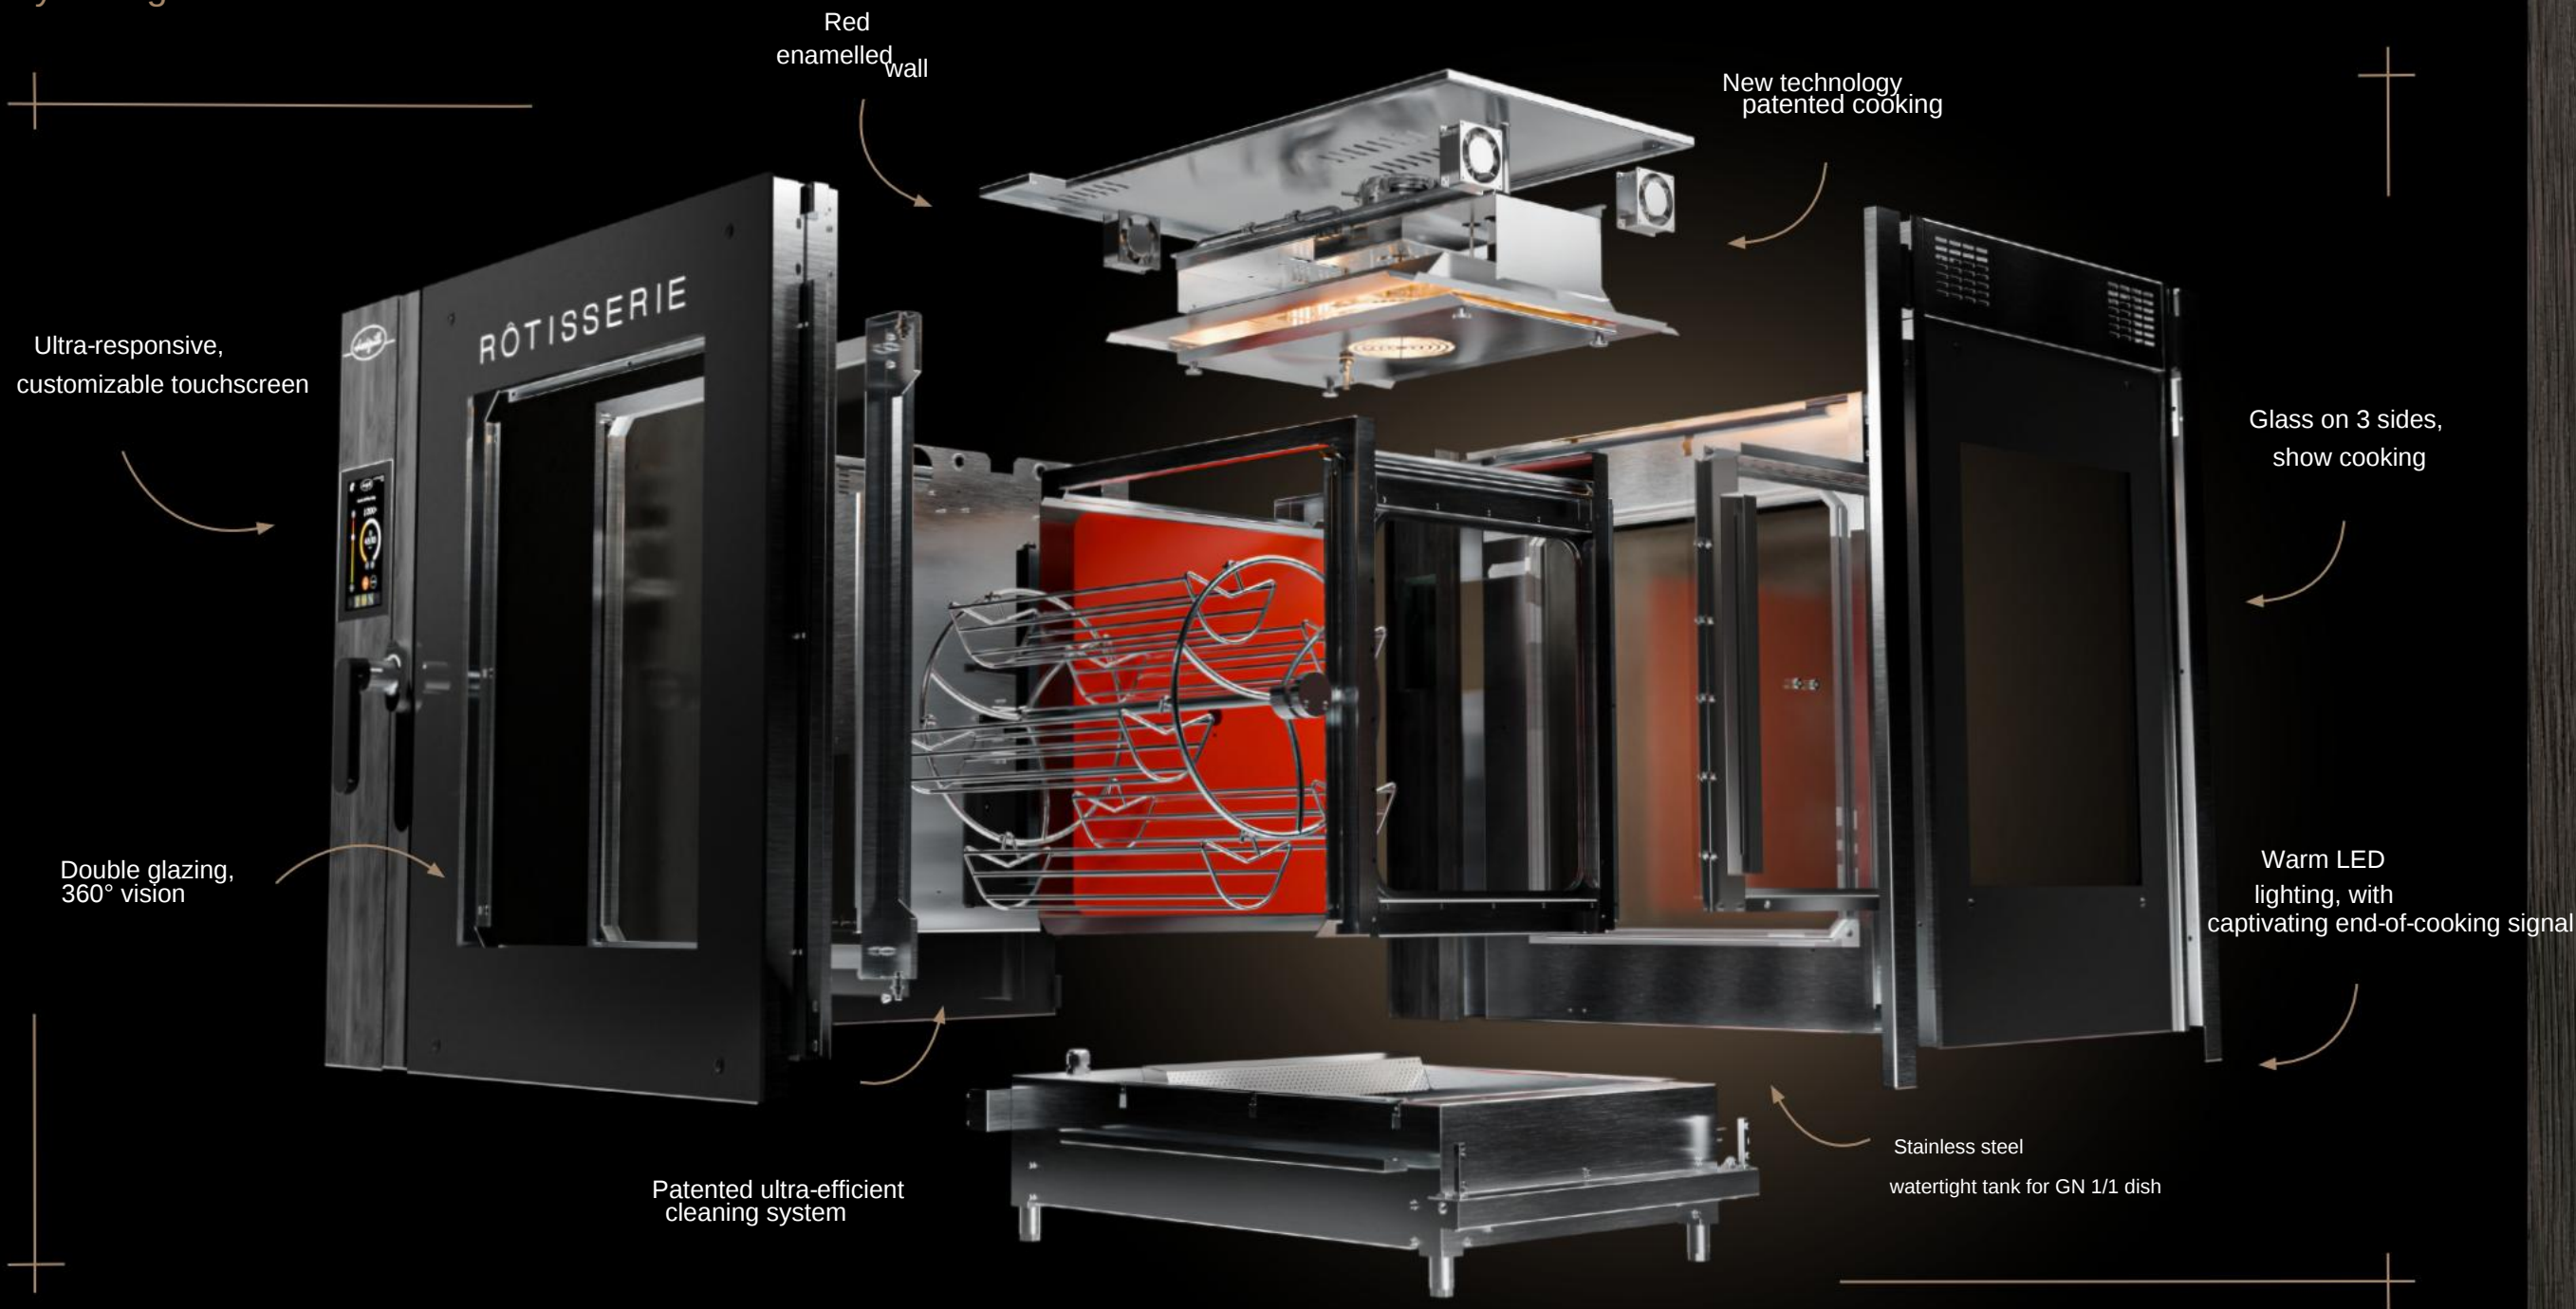

Design and quality

golden and crispy cooking

Panoramic vision

Advanced and professional cleaning

- 100% self-cleaning system with an innovative, efficient and ecological closed circuit (no discharge to the outside during the cycle)
- Simple thanks to the use of professional detergent tablets
- Autonomous and economical (only 20 liters of water)

Design and quality

- Cross-window and panoramic design: large glass surfaces on 3 sides
- Location of the side window and control panel as desired
- the implantation (right or left)
- LED lighting
- Optional red enamel interior

Unparalleled cooking

- Golden and crispy on the outside, soft and tender on the inside.
- Guaranteed return through minimized weight loss of foodstuffs

Intuitive and user-friendly use

- Automatic water filling of the drip pan
- Multifunction cooking
- Façade tactile intuitive
- Easy bilateral access for loading goods
- Core probe as standard
- Bright, captivating and audible end-of-cooking signal

Simplified maintenance

- Interactive diagnosis on the front screen.
- Guide d'identification proper functioning without technical expertise.

Configurations multiples

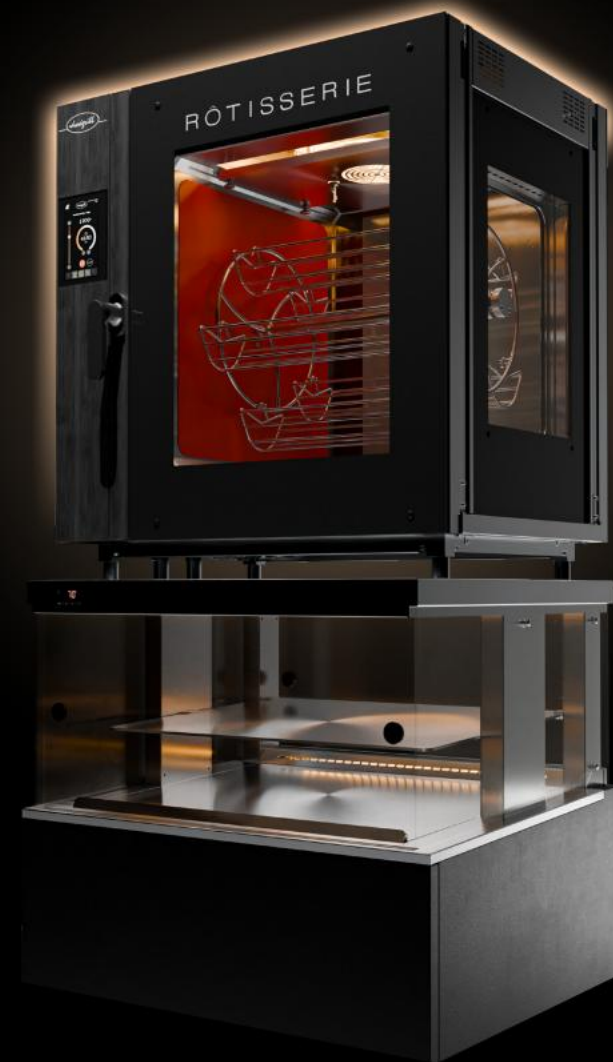

- Rotisserie on furniture technical or on self-service hot display

Security

- Double anti-scald glazing
- Athermic windows on 3 sides
- Door opening sensor
- Assisted hinges with notches (prevents untimely closures)
- Filling the drip tray with water & emptying of grease and automatic wash water
